

NORTH TEXAS SECTION E-NEWSLETTER

MAY 2014—VOLUME 26, NUMBER 3

MAY DINNER MEETING

Date: Thursday, May 15, 2014

Location:

Southside Wastewater Treatment Plant
10011 Log Cabin Road
Dallas, Texas 75253

Agenda:

5:30 p.m. — Social hour
6:30 p.m. — Dinner
7:00 p.m. — Announcements
7:15 – 8:00 p.m. — Program

Speaker: Leslie Castillo, PE, City of Dallas
Wastewater Facilities Project Manager

Topic: Dewatering Facility: Southside
Wastewater Treatment Plant's Experience

COST	BEFORE MAY 12	ON/AFTER MAY 12
Members and Guests	\$20	\$25
Full-Time Students	Free	\$10

We offer a reduced fee to encourage early registration using our **convenient online payment system**. When registering, please specify your name and company as you wish it to appear on your name tag in the instructions in the buyers' comment area. Checks, cash, and/or credit cards are accepted at the door for post-deadline and walk-in registrations.

RSVP: Brigit Buff at treasurer@weat-nts.org

MEETING DETAILS

The dewatering facility located at Southside WWTP processes solids generated from the Dallas Water Utilities' two wastewater treatment plants with a total permitted annual flow of 260 MGD. Evaluation of the temporary structure found that it had surpassed its intended life span and the corrosive environment was deteriorating the structure and the equipment as well as creating undesirable working conditions for the operators.

Join us as we learn how Southside's problems were solved and tour the new dewatering facility!

PLATINUM SPONSORS

- AECOM
- Alan Plummer Associates, Inc.
- CDM Smith
- CP&Y, Inc.
- HDR
- J&S Valve

GOLD SPONSORS

- Freese & Nichols, Inc.
- Hartwell Environmental
- Treatment Equipment Company

MAY DINNER MEETING (CONT'D)

ABOUT THE PRESENTER

Leslie Castillo is a licensed Professional Engineer with 12 years of experience in water and wastewater design, construction and project management with the Dallas Water Utilities. She earned a Bachelor of Science in Civil Engineering from

the University of Texas at El Paso. She has been a project manager in the DWU Wastewater Facilities Project Management program for the last 10 years and has managed various projects at DWU's two wastewater treatment plants, including the Southside Wastewater Treatment Plant Master Plan, Solids Screening and Thickening Facility Odor Control Improvements, and the construction of the new dewatering facility.

LEADERSHIP MESSAGE

APRIL SHOWERS BRING MAY FLOWERS

Louis Armstrong once sang, "I see trees of green—red roses too. I see 'em bloom for me and for you. And I think to myself, 'What a wonderful world!'"

Earlier this week, I walked out onto my backyard as the dawn was breaking through the distant clouds. I could hear the bluebird chicks chirping in the birdhouse hanging on the fence, and I saw two baby bunnies in the yard delighting in the fresh green grass sprouting from the recent rain. The air was cool and crisp, but not cold. It made me realize how lucky I am to be here in North Texas in the spring.

Yes, spring has sprung in North Texas, and that means that **it's Texas Water season**. Last month, the WEAT and TAWWA put on quite the show. What a beautiful venue, the Hilton Anatole. You know that Texas Water by itself is a spectacular event, but putting it in a venue like the Anatole takes it to a higher level. What a spectacular facility! It was as though I was walking through a museum with all my friends and colleagues. To be sure, the walk from the exhibit hall to the presentation rooms was distant, but come on, guys: **you either ran in the Dodson 5K fun run or you needed to run in the Dodson 5K run**, so a little walking wasn't going to hurt anyone (least of all me). And as a benefit to the walk, I can't tell you how many of you I ran into along that corridor.

Kudos to WEAT Executive Director Julie Nahrgang and TAWWA Executive Director Mike Howell, the host City of Dallas, Planning Committee Chairs Jeff Sober and Terry Lowery, the Planning

Committee, and all the volunteers! All of you deserve recognition for a job well done and not soon forgotten.

For the benefit of all, just under 4,000 individuals gathered together to share information, demonstrate new technology, and learn how to make the world wonderful both now and for future generations. It has been said before, and I am sure it will continue to be said over and over again: **"Water is life."** To make this a wonderful world, we must continue to work at keeping water **accessible, reliable, and treatable**.

This world is a gift. Can you imagine being anywhere else? Think about it: Where else can we be? Unless you have been somewhere else, this world is our only point of reference, and if you *have* been somewhere else, I know some people in this place called Area 51 who would like to talk to you.

Friends, this will be my last President's message, as my term ends in May with the installation of the new Executive Committee. **I would like to thank everyone in the WEAT-NTS organization for helping me.** I could not have done it without you. Being a part of this organization has made me realize how much work there is to do and how much we need each other to succeed.

This has been one of the best experiences in my life and will be added to the memories I will cherish. **You all started as colleagues or associates, but I now consider you my friends.** I can guarantee that when I think of my life in the WEAT family, I will think, "What a wonderful world."

Sebastian "Buster" Fichera, REM
WEAT-NTS President

LEADERSHIP

2013–2014 WEAT-NTS OFFICERS

PRESIDENT • **BUSTER FICHERA**
PRESIDENT-ELECT • **JEFF SOBER**

Treasurer: Mark Perkins

Secretary: Jerry Joslin

Section Representative: Erin Flanagan

WEAT-NTS LEGISLATIVE UPDATE

A NOTE FROM JULIE NARHGANG

I am in the midst of adding a new hat to my WEAT collection! As of April 13, I officially became WEAT's second Executive Director. I have been an employee of WEAT for 5.5 years, our Association Manager for 2.5, and look forward to working with our members in this new and exciting capacity! Carol Batterton has officially retired as WEAT's ED, but she will still be active in our Governmental Affairs Committee. She was also recently awarded—and accepted—the WEAT Executive Director Emeritus Award. This means that her guidance and advice are always just a phone call away, as well as pointing to her many decades of commitment to WEAT and clean water. Moving forward, I will retain some of my Association Manager responsibilities and add them to my newly acquired ED role. I am ecstatic to begin my legislative and regulatory work in this exciting period of HB 4 implementation and on the heels of the upcoming 84th Legislative Session!

Some of WEAT's hot-button issues include the ongoing discussions on HB 4 implementation. With the passage of the historic legislative of HB 4, the TWDB is taking an aggressive timeline to adopt rules for its implementation. The TWDB is grappling with definitions of "conservation," "reuse," and "rural" as well as how the State will prioritize the plans put forward by the 16 regional planning groups. The draft rules are set to be posted on the TWDB website around 6/19, one week prior to the TWDB work session on 6/26. The likely approval of the draft rules at the 6/26 work session and subsequent publication of the draft rule in the Texas Register will trigger a formal comment period. WEAT will determine appropriate comments after reviewing the draft rules. Stay tuned for more information on the HB4 implementation front and WEAT's comments.

Also on our radar in the regulatory arena is the current TCEQ rule writing process regarding biosolids land application. The draft rules are available for view online at <http://www7.tceq.state.tx.us/uploads/eagendas/Agendas/2014/3-26-2014/0101RUL.pdf>. The proposed rulemaking will "address nuisance odors and unauthorized discharges of bulk sewage sludge by establishing 'core requirements' applicable to all classes of sewage sludge, establishing a new classification structure with corresponding requirements based on upon treatment processes, and clarifying the Executive

Director's authority to include additional requirements as needed to address nuisance odors."

WEAT has been involved in the TCEQ stakeholder meetings, has provided pre-draft rule comments, and is now formulating our comments on the draft rule language. WEAT has identified general areas that we will be touching on in our comments that include performance-based standard flexibility allowing for variance mechanism; addressing composting and other marketable products; clarifying language on the odor control plan, specifically when a plan is "necessary" or "significant nuisance conditions" exist to require a plan; the nuisance/odor language with guidance to definitions and reintroducing "objectionable" to the rule; and, lastly, cost issues involved, which broadly includes an understanding of capital costs involved in operations and maintenance to make a process changes.

The 84th Legislative Session is set to begin January 13, 2015. WEAT will actively track bills of interest to our members and will testify and comment when appropriate. Currently, we are putting together our agenda for the Texas Water Environment Horizon Conference held on November 13, 2014, in Austin. This is our biennial conference always held in advance of the legislative session that brings together legislative- and regulatory-minded WEAT members, elected officials and their staff, and regulators to discuss our state's pressing water issues in the legislative and regulatory arena. Save the date—November 13, 2014—and join us for WEAT's Texas Water Environment Horizon Conference! Our one-day conference will give attendees a jumpstart on issues in the 84th Legislative Session and at the TCEQ and TWDB.

Last month, the Chair of the Texas Water Development Board, Carol Rubenstein, addressed the crowd during Texas Water's opening session and reminded us that Texas water law is a history of our droughts. With 2011 being the driest year on record for Texas, and as the drought persists through much of the state, how we use, deliver, and reuse water will continue to play a significant role during the 84th Legislative Session. Stay tuned!

WEAT-NTS offers three levels of dinner meeting sponsorship, plus multiple individual sponsorship opportunities. See the details below for how you can support WEAT-NTS for the July 2013 to June 2014 Fiscal Year. The sponsorship will allow your firm access to over 500 NTS members and is greatly appreciated.

WEAT – North Texas Section Sponsorship Opportunities

Valid July 2013 to June 2014

Individual Sponsorship Opportunities

- Fall BBQ Picnic Cook-Off – \$250
- Sporting Clay Station – \$150
- WEAT – NTS Scholarship – \$100
- Daryl Hall Scholarship – \$100
- NTS Newsletter Business Card Ad – \$150
- NTS February Seminar – \$250
- NTS Young Professionals – \$100
- Recognition of Individual Sponsors includes:
 - ✓ List of sponsors in newsletter announcement
 - ✓ List of sponsors in event reminder emails
 - ✓ Sign at event listing each sponsor

Classic Sponsor

- \$250 for one Dinner Meeting
- Typically five Classic Sponsors per meeting
- Recognition of Classic Sponsors:

- ✓ Announcement on front page of newsletter (name of firm)
- ✓ Announcement in meeting reminder emails (name of firm)
- ✓ Sign at meeting listing the sponsors (name of firm)
- ✓ Verbal recognition of sponsors by President at the beginning of the meeting

Gold Sponsor

- \$1,250
- Recognition at **ALL** six meetings (*for the price of five*)
- Recognition of Gold Sponsor is the same as Classic Sponsor at **ALL** six meetings

Platinum Sponsor

- \$1,850
- Recognition at **ALL** six meetings
- Recognition of Platinum Sponsor is same as Gold Sponsor, plus:
 - ✓ Company name included in newsletter announcement
 - ✓ Company logo included in meeting reminder emails
 - ✓ Company logo included in sponsor sign at meeting
 - ✓ Display of digital banner at meeting (if supplied) via PowerPoint
 - ✓ Recognition of Platinum Sponsor by President at the beginning of the meeting
 - ✓ **Includes sponsorship of:**
 1. February Seminar
 2. WEAT-NTS Scholarship
 3. Daryl Hall Scholarship
 4. Business Card Ad in Newsletter

To become a sponsor for the July 2013 to June 2014 Fiscal Year— and to get your company name in front of over 500 members— please contact:

*Brigit Buff
WEAT-NTS Treasurer
Email: Brigit.buff@CH2M.com
Phone: 972.663.2239*

To pay by credit card, please visit www.weat-nts.org and utilize our online payment option.

WEAT★NTS T★shirts For sale!

Show your support for the North Texas Section with this embroidered-logo polo t-shirt! These black Chestnut Hill shirts are available in men's small, medium, large, and extra-large sizes. Each shirt is \$30 and will be available for purchase at the registration table at WEAT-NTS meetings and events. Shirts will be shipped to you or can be picked up at the next meeting.

Shirts can be purchased by **cash**, **check**, or **credit card** (credit transaction can be conducted through WEAT-NTS's online payment system (<https://squareup.com/market/weat-nts>) or over the phone with NTS Treasurer **Brigit Buff**). Checks can also be mailed to the following address:

ATTN: Brigit Buff
CH2M HILL
12750 Merit Drive, Suite 1100
Dallas, Texas 75251

For more information, please contact Brigit at treasurer@weat-nts.org or 972.533.2499.

MARCH 2014 DINNER MEETING

On March 24, 2014, the North Texas Section held its second dinner meeting of the year at the Texas Star Golf Course in Euless. This month's presentation was given by Harvey Perriott, Homeland Security Advisor for North Texas, who spoke about cybersecurity. Mr. Perriott, whose office was created in 2004, meets with organization's critical infrastructure officers and explained that Presidential Policy 21 and Executive Order reshifted the focus within the Department of Homeland Security to include focus in cybersecurity.

The Department of Homeland Security presents an annual report to the White House. PPS21 required an update of the National Infrastructure Protection Plan, which provides instruction to help in championing the protection of critical infrastructure. Critical information sharing network for specific sectors is available. Executive Order called for a Cybersecurity Framework. Mr. Perriott reminded all that we should focus on "Identify, Protect, Detect, Respond, and Recover."

Thank you for attending!

President-Elect Jeff Sober and Past President Dawn Anderson crack smiles at the podium.

Grace Wike, our new Dallas YP Co-Rep, discusses upcoming YP events. Mark Perkins is recognized for his work chairing a successful February Seminar.

President Buster Fichera and Vice President Eva Gorgi thank Harvey Perriott for his presentation.

2014 SPORTING CLAYS EVENT

The 5th Annual WEAT-NTS Sporting Clays event was a hootenanny for a bunch of folks that may or may not have been shootenanny. A big thanks goes out to our many sponsors, volunteers, and participants. With **over 132 participants, 32 volunteers, and 32 different teams**, this event continues to grow in popularity. This year's sponsors included:

- Ace Pipe
- Alan Plummer Associates, Inc.
- Alpha Testing
- Archer Western Contractors
- Cardno TBE
- Carollo
- Garver
- Halff Associates
- Municipal Valve and Equipment
- Perkins Engineering
- Prime Controls
- SAM
- MWH Global

AWARD	RECIPIENT	SCORE
Team – 1 st Place	Teague Nall and Perkins	88
Team – 2 nd Place	CDM Smith	79
Team – 3 rd Place	Archer Western	78
Team – Most Honest	Alan Plummer Associates, Inc.	34
Team – 2 nd to Last	Archer Western	37
Individual – 1 st Place	Joe Atwood	94
Individual – 2 nd Place	Ron Wertz	92
Individual – 3 rd Place	Mark Evers	88
Individual – Most Honest	Nicole Conner	11
Female – 1 st Place	Megan Conner	46
Female – 2 nd Place	Angellia Points	33

After a long day of shooting, teams were rewarded with a BBQ lunch provided by Donna Moore. ***This event would not be possible without our volunteers and willing participants.*** Thank you again for all who helped to make this an excellent event.

We are looking forward to another successful event next year!

2014 SPORTING CLAYS EVENT (CONT'D)

First Place Overall Team Award— with an average of 88 shots—went to the Teague Nall and Perkins team comprised of Joe Atwood, John Polster, Ron Wertz, and Tom Price. Be prepared for next year and snatch these shooters up early!

The CDM Smith Team came in a close **Second Place Overall** with an average of 78.5 shots. This team consisted of Doug Varner, Kent Riker, John Bennett, and Mr. Miller.

Third Place Overall went to the Archer Western team with an average score of 78.3 shots with Rod Lunkwitz, Mark Tepera, Jason Davis, and Jeff Kendall.

2014 SPORTING CLAYS EVENT (CONT'D)

The **Most Honest Team Award** went to the Alan Plummer team, Miss Fire An' Mo' Shells, consisting of Marshall Plunk, Stephanie Moore, Jesse Borries, and Lynsy Nagle, with an average score of 34 points.

The **At Least We're Not Last Award** went to the Municipal Valve and Equipment team with an average score of 37 points.

First Place Female was Megan Conner with a score of 46 points.

2014 SPORTING CLAYS EVENT (CONT'D)

Second Place Female went to Angellia Points with a score of 33 points.

First Place Individual went to Joe Atwood with a total of 94 out of 100 clays hit.

Second Place Individual was awarded to Ron Wertz with 92 points.

Third Place Individual went to Mark Evers with 88 points.

Taking home the **Missed by a Mile** award was Nicole Conner with 11 shots.

TEXAS WATER 2014

Were you at this year's Texas Water conference in Dallas, Texas?

CDM Smith's David Briggs and Kent Riker accept the Seepex Exhibition Event 1st Place award.

We want to hear from YOU!

*Send us your pictures, stories, and kudos!
They may appear in the next newsletter!*

E-mail: weatnts@weat-nts.org

The CREWSers pose for a glamour shot after their win in the Ops Challenge.

Freese & Nichols won 2nd Place in the Seepex Exhibition Event.

Walter Chiang, founder of CP&Y, presented at this year's Gloyna Breakfast.

Jason Crawley received the WEAT Emerging Leader Award. Congratulations, Jason!

SEMINARS • WORKSHOPS • TRAINING

WEAT E&I COMMITTEE MAY SEMINAR

The WEAT E&I Committee will be sponsoring its fourth technical seminar of 2014 on May 21. This month's session will cover instrumentation technology and installation details.

- **Date:** Wednesday, May 21, 2014
- **Time:** 9:00 a.m. – 12:00 p.m.
 - ✓ Meet & Greet begins at 8:30 a.m.
- **Location:** Prime Controls
1725 Lakepointe Drive
Lewisville, Texas 75057

Upon arrival, we will have a donation jar for Water For People. This will be an ongoing effort, and it will continue to be entirely voluntary. Plans are to donate 100% of the amount collected to charity. As you know, we have not charged—nor do we plan to begin charging—any fee for participation in these seminars. This opportunity to make a totally voluntary charitable donation is intended to make a difference, so your generosity is appreciated.

OPERATIONS CORNER

REY DAVILA

Rey Davila has been involved in day-to-day activities at the Southside Wastewater Treatment Plant (SWWTP) as an operation shift supervisor since 2003. Rey was born in Nuevo Laredo, Mexico, and received his Electrical Technician Degree in 1981.

In 1982, Rey moved to Dallas, Texas, and started working for TXI Industries as an electrical maintenance technician.

In 1986, Rey began working for the City of Dallas, starting his career at the City of Dallas Central

Wastewater Treatment Plant (CWWTP), where he worked as an operator. In 2003, he was promoted to a supervisor position at the “sister” plant: SWWTP. In 2005, he pursued more challenges and responsibilities and accepted a position as a shift supervisor in the solids section. He was instrumental during the design, construction, and start-up of new processes, treatments, and facilities. On many occasions, Rey’s proposed suggestions were implemented into designs. During the construction and start-up phase, he was actively engaged in solutions to process and mechanical issues.

He tirelessly and diligently responded to process problems to ensure State and National permit requirements. Rey has managed the solids processes with no violations and has been an outstanding supervisor. He consistently encourages his employees to grow in their knowledge and experience. He shares his expertise by educating and training colleagues and coworkers. Many of the operators studied under his supervision and obtained higher TCEQ Wastewater Operator licenses. These licenses opened many new opportunities to advance in a wastewater operator career.

Rey is well-known in WEF/WEAT Operations Challenge program. He has been a captain of the City of Dallas

Aqua-Techs Operations Challenge since 2005. He has taken his team to every WEFTEC national competition. Under Rey’s leadership, the Dallas Aqua-Techs team has won first place in all events at the State and National competitions. At Texas Water 2012, held in San Antonio, Rey received the prestigious David Barber Competitive Spirit Award, given to the competitor with the best spirit and drive.

In May 2013, WEAT sponsored a “Dream Team” for the invitational regional operation challenge in Atlantic City, New Jersey. Rey was selected among all the operators in the State to represent Texas at this competition. In April 2012, WEF selected Rey along with three other distinguished operation challenge competitors to represent, for the first time ever, the all-star team from the United States in the Argentina Competition.

In 2004, Rey received a TCEQ teaching certificate and became an instructor for the in-house wastewater operators’ continuing education program. He offers one-to-one learning sessions to help operators prepare for TCEQ certification tests. Thanks to his friendly personality, theoretical knowledge, skills, and practical experience, he has helped many operators obtain TCEQ certificates.

Throughout Rey’s career in the wastewater industry, he has guided numerous tours at the SWWTP: specialized tours for consultants, engineers, and young professionals, where he explains the treatment processes from an operator’s perspective and general tours for students from elementary to high school, where Rey educates students on water environment issues.

As an exemplary father, he has been a speaker at his children’s schools career day many times. His speeches promoted the wastewater industry and emphasized an importance of his profession in a water environmental business.

ANNOUNCEMENTS

RECENT RELOCATIONS AND NEW HIRES AT CAROLLO

Carollo is pleased to announce four new employees in their Dallas office.

Manoj Yegnaraman, PE, CE, CP, has a B.E. in Instrumentation and Control Engineering from the University of Madras in India and an M.S. in Electrical Engineering from the University of Alabama in Huntsville. He has over 10 years of engineering experience in SCADA and I&C, specifically for water and wastewater treatment. He is a Certified PROFIBUS DP Engineer and PROFIBUS PA Engineer. His role is to provide I&C support for local water and wastewater projects and to grow the Dallas EI&C team.

Jamie Sims, EIT, graduated with a B.S. in Civil Engineering with a structural emphasis from the University of Missouri – Saint Louis / Washington University – Saint Louis joint program. Her studies included designing and constructing buildings, bridges, public facilities, waterways, and water/wastewater treatment facilities. She joins the Dallas structural group and will be assisting with structural design for Texas projects.

After completing her B.S. in Civil Engineering and working in India for a couple of years, **Vidula Bhadkamkar, EIT**, came to the U.S. to pursue higher education. She graduated from Virginia Tech with an M.S. in Environmental Engineering and worked as an environmental engineer for a consulting firm in Baltimore. She recently moved to Dallas and will work on Texas water/wastewater projects.

David Price is an experienced IT technician with numerous software and operating system certifications. He provides IT support for both internal needs and for external project portals and IT needs.

DXP ENTERPRISES WELCOMES JON PENLAND

DXP Enterprises is proud to announce that Jon Penland is relocating from Toccoa, Georgia, to North Texas to take the position of Account Manager covering the municipal plans and specifications market in Texas and Oklahoma.

Welcome to the Metroplex, Jon!

ANNOUNCEMENTS

ARCADIS ANNOUNCES NEW DALLAS STAFF

Don Vandertulip, Principal Engineer, has 40 years of experience in wastewater master planning, treatment, collection and pumping; water supply planning, treatment, storage and distribution; recycled water planning, pump, storage and distribution systems; and program management. Nationally, Don served as technical director for the 2012 update of USEPA Guidelines for Water Reuse and is active in numerous professional organizations. In Texas, Don is active on the WEAT Municipal Wastewater Treatment and Reuse Committees and served as Section 11 Board Representative. Don is active in TAWWA Reuse and Conservation Division, and was recognized at Texas Water 2013 with the WEAT Alan H. Plummer Environmental Sustainability Award.

Dan Lopez, Senior Project Manager – Wastewater, has 28 years of experience and transferred to ARCADIS's Dallas office in 2013 from their New York office, where he worked for the past 25 years in facility planning; conceptual, preliminary, and detailed design; hydraulic design; development of specifications; budgetary and construction cost estimating; and construction administration services for industrial and municipal water and wastewater treatment facilities. He has experience in the planning and development of wastewater treatability studies, pilot plant work, and wastewater treatment process design for biological nutrient removal.

A WOMEN-OWNED BUSINESS - CERTIFIED NATIONALLY & REGIONALLY

ANNOUNCEMENTS

Gail Charles, Senior Water Process Engineer, Gail has 26 years of experience with water

treatment plant process and planning studies and evaluations for a broad range of facilities. She has effectively coordinated with water plant personnel and regulatory officials, conducted drinking water treatability assessments and process designs, and

participated in all aspects of research projects for Water Research Foundation and USEPA. Other duties she has performed include preparation of technical reports and data analysis and management for multiple full-scale, bench-scale, and pilot-scale evaluations and other process engineering studies, several of which focused on investigating process changes to achieve regulatory compliance.

Ben Kuhnel, Senior Project Manager – Water, began his career with ARCADIS 11 years ago in their Dallas office after previously working for the TCEQ. He recently returned to Dallas after completing challenging projects in southern California. Ben's experience includes the design and construction of many large ozone and UV systems, chemical systems,

pumping systems, and ocean desalination. His experience with the Trinity River Authority, City of Dallas, City of San Diego, Fallbrook Public Utilities District, and Los Angeles Department of Water and Power, in the various stages of water quality monitoring, design, construction, and startup has given him a broad and thorough understanding of water treatment plant processes and design considerations looking at full facilities, not just the individual processes.

SUBMIT A NEWSLETTER ANNOUNCEMENT!

The WEAT-NTS newsletter is circulated six times a year to 500 water environment professionals, treatment plant technicians, public officials, regulatory agency personnel, manufacturers, and individuals in the North Texas area. We welcome relevant announcements and news items for future newsletters.

SUBMITTAL GUIDELINES

- You may submit relevant news items such as new hires and acquisitions, project awards and recognition, and other relevant news announcements.
- Announcements should be broadly relevant to the WEAT-NTS membership and the North Texas community.
- We will not accept promotional materials or commercial advertising.
- The Electronic Communications committee will edit announcements for brevity, clarity, and suitability.
- The WEAT-NTS Executive Committee reserves the right to reject all submissions deemed unsuitable.

YP HAPPENINGS

Get Connected with WEAT-NTS
Young Professionals!

The YPs kicked off spring with a happy hour at the Flying Saucer in Addison on April 3, sponsored by Pierce Pump Company. **The next YP outing will include a tour at Dallas / Fort Worth International Airport!**

If you are interested in receiving details about this event, YP event e-mails, sponsoring a future happy hour, or would like to host a project tour, please e-mail a YP representative (contact info is on the Contacts page on the last page of the newsletter).

Hope to see you there!

OF NOTE...

SIGN UP FOR E-MAIL NOTICES

E-mail weatnts@weat-nts.org to be added to the distribution list.

Notices will go out well in advance of the meetings and also serve to notify you of events and changes. You will receive about three e-mails every month.

ONLINE PAYMENT AVAILABLE

WEAT-NTS sponsors and dinner meeting attendees can now pay online at www.weat-nts.org.

Companies and individuals can sponsor dinner meetings and/or the newsletter or donate to scholarship funds at the WEAT-NTS website.

Members can register early for dinner meetings and take advantage of reduced fees by paying online.
